

4th annual

# Women's Fishing Contest

Volume 1, Issue 1

May 2007

## Lora reels 'em in

Lora Young lands a keeper in last years 3rd Annual Women's Fishing Contest. Last years winner, catch of the day hauled in 26 lbs of fish. The Pussy Pirates took second place with 17 lbs. The weather was great for fishing and spending time on the lake, even if your boat's motor didn't

work. Course that didn't stop catch of the day, with a little luck and lots of fishing skills the fish were jumping out of the water and right into the pontoon, maybe because the pontoon couldn't move? Hmmmm, wonder what their strategy will be this year? Heerrree fishy fishy

## Newsletter brings information....

The Women's Fishing Contest (WFC) is growing every year, bringing women of all ages and areas together in the fun spirit of fishing. We would like to introduce this newsletter in the same fun spirit, and encourage everyone to use this medium to exchange ideas, share pictures, and of course, tell fish tales. The newsletter will be sent out twice yearly: prior to the event, including any "need to know" information, and after the event including stories and pictures of the recent contest. As WFC grows we hope the newsletter will as well. See your team

captain to sign up for the newsletter. Greenhaven Printing in St Paul, MN has donated the printing for this newsletter and Vencio Inc., a communications company also in St Paul, will donate an e-mail version. In the future, we hope to create and host a website through Vencio, with the ability to create blogs, upload pictures and link to other areas of interest. Please send your stories, pictures, and ideas for future issues to: [womensfishingwi@gmail.com](mailto:womensfishingwi@gmail.com). We hope to make this newsletter interesting and fun for all of us. Your participation is needed!

## Donations and Prizes

This year there are companies that have donated items and gift certificates to the WFC so not only will WFC payout 1st, 2nd, 3rd and biggest game fish cash prizes but there will

also be raffle prizes. Don't forget to get your Fish-A-Rama button at Wolf's Den, there are tagged fish out there that pay cash as well. Check all your fish for tags. \$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$

## Thank you

There are many people involved in the WFC that take good care of the women participating. We would like to thank us to launch the contest and return for prizes and pot luck food. We would

like to thank all the guys, Jim, Roger, Dale, Glen, the Johnsons, Don, Gene, Butch and others that race around the lake to make sure that everyone has what they need while reporting fish tales from other teams. Thanks guys!

## Rules?

Rules schmules! Yeah, ok we need some rules. Your team captain has been given a WI DNR Fishing Rules Book. Please be aware of the size minimums for certain fish and the fish limits per person.

There are only two rules this fishing contest has besides the DNR's: 1) there are only 6 poles in the water at one time 2) be safe and have a dang good time!

GOOD LUCK LADIES!
